Introducing Britain

Documentary 5'00

Part 1

You arrive at an airport in Britain.

The first thing you see are the similarities. A lot of things look the same here as at home. You could be anywhere in Europe.

Part 2

The shops are an international mixture. The people don't look any different. The clothes are the same. The hair is the same. People do the same things. The British can be polite and friendly...but not always.

Part 3

When you leave the airport, you will see that everyone drives on the left. Be careful when you cross the road!

Part 4

One of the differences you'll see is the style of the houses. Each house generally has just a ground floor and a first floor and is surrounded by a small garden.

Looking after the garden is one of the main British pastimes. In suburbs like this, there are not many blocks of flats.

Everything looks neat and tidy.

Read this text and mark the sentences as true or false.

1. The first thing you see are the differences.
2. The British can be polite and friendly ... but not always.
3. Looking after the car is one of the main British pastimes.
4. Many British cities have changed to make things better for people.

Match the definitions with the words from the text.

1. The quality of being alike or like something else (N) part 1.
2. A combination of things or people of different types (N) part 2.
3. To be all around on every side (V) part 4.

После выполнения упражнений проверяем правильность выполнения.

VIII. Подведение итогов (2мин.)
